- › The data halls are located on the ground floor and with space for business recovery services on the first floor for colocation clients.
- › There are 6,995 sq. ft of net technical area across two data halls.
- › 24/7 access & on-site support.

Host-IT has over two decades of expertise in managing data centres and providing comprehensive connectivity solutions. Our offerings encompass a wide range of fully managed services, including advanced managed firewall protection where required, with bandwidth options spanning from 10MB to 100GB across highly reliable, redundant networks. We streamline our clients' experience by consolidating colocation, power, and connectivity charges into a single invoice, reducing administrative burdens. Moreover, our dedicated help desk is always ready to support all the services we offer, ensuring seamless operations for your business.

Services Available

Host-IT can supply the following range of services from this location:

Lockable 1/4, 1/2 & Full racks

Individual Server colocation (1U, 2U etc)

Fully Managed Hardware Firewalls

Managed Internet Connectivity
